2. [REDACTED] LIAISON Accompanied by [REDACTED] OSI, and [REDACTED] OLC, I called on Frank Slatinshek, Chief Counsel, House Armed Services Committee, to discuss recent Soviet underground nuclear tests. We gave Slatinshek a paper explaining the problems in being precise about yields and [REDACTED] described in great detail the reasons why we cannot be precise. Slatinshek said this would suffice and he would attempt to explain it to Chairman Lucien Nedzi (D., Mich.).
